Program

I propose you to create figurative or abstract illustrations from a wide range of plain and printed papers (drawing paper, white and coloured, Nepalese or Indian handmade paper, wallpaper designs, gift paper, pages from old books and magazines, prints of vintage documents such as old notary letters, Chinese prayer papers with gold or silver leaf, cancelled stamps, etc.).

The appearance of the different papers, their textures, their colours will allow you to create a coordinated range.

You will have at your disposal a colour wheel, technical documentation and my help to guide you in your work.

You will cut out the papers, tear them up, enhance them with hand-printed stamp designs, scribble them with graphite or coloured pencil, markers, pastel crayons, then compose a harmonious image that you will glue on a plain background.
